FROM: C/LLD

SUBJECT: HPSCI Request for Visit [REDACTED]

25X1

1. On 18 March House Permanent Select Committee on Intelligence (HPSCI) staffer requested that CIA arrange a visit by Rep. C. W. Bill Young (R., FL) and one or two HPSCI staffers [REDACTED] Rep. Young proposes that the visit take place beginning circa close of business on a Thursday and terminate on the next (Friday) evening, or that it be accomplished entirely on a Friday. Rep. Young would like to make the above visits in the "next several weeks" and will let us know the preferred timing. In the meantime, Rep. Young would appreciate a list of suggested itinerary items which the Agency might recommend for such a visit. Young has never been to the subject locations before. HPSCI staffer Mr. Dick Giza (who has visited these locales and thought the scheduled locales and program a good one) believes that Rep. Young enjoys an active schedule with emphasis on meeting people and doing things, rather than classroom presentations.

2. I would appreciate, as soon as possible, a DDO itinerary suggestions as requested above together with any recommendations on the timing of the visit during the next several weeks. Please notify [REDACTED] of your findings.
